

BETTER CONSTRUCTION AT LOWER COST

STUDY THESE CUTS

Why Interlocking Tile is so Widely Used

For many years the public—you—has needed a building material that would be better than anything heretofore in use, and at the same time be within the reach of all in cost.

Interlocking Tile is being used from New England to the Pacific Slope, from the Great Lakes to the Gulf of Mexico, because it is filling this demand. In Texas every section is using this material for every class of building, it being more especially adapted to our climate than any other.

Nothing can compare with a material that builds fireproof walls that are cooler in summer, warmer in winter, stronger and more rigid, and at the same time cheaper than brick. Interlocking Tile does this.

Just why these apparently impossible, "too-good-to-be-true" things are so is fully explained in our literature, government reports, etc. Write for this data and information now, even if you do not intend to build until later. You will be well repaid.

CIVIL APPEALS COURT HAS MUCH BUSINESS

Dallas Journal:

The Court of Civil Appeals for the Fifth Judicial District will hold its first open session of the new term tomorrow morning when it is expected rulings will be announced in several cases.

The number of cases pending before the court has grown in the year. At the opening of the term there were 146 cases on the docket. This fall there are 185, an increase of forty, despite the numerous decisions handed down by the court last term.

If the court had put in the three months of vacation at work, while drawing their pay, they probably would have been up with the docket.

Camp Resolutions

Whereas, the altwise Creator has taken from us our beloved comrade, W. R. Sharp.

Be it resolved that we bow in humble submission to the will of Him who doeth all things well.

That we, the Bill Scurry Camp, deeply deplore our loss and shall sadly miss his pleasant face and kind words.

That we extend our sincere sympathy to the bereaved family.

Comrade Sharp was 81 years old. He departed this life September 23, 1915. He enlisted in the 5th Texas Regiment, Company E, and served his country faithfully to the end of the war.

CHICHESTER'S PILLS

LADIES: Let me suggest the CHICHESTER'S DIAMOND BRAND PILLS. These pills are made of purest ingredients and are the most reliable and safe for CHICHESTER'S DIAMOND BRAND PILLS. They are sold by all DRUGGISTS EVERYWHERE.

OLD COIN VALUES.

Only Very Rare Specimens Can Command a High Price.

"The 1804 dollar," said a coin expert, "is believed by thousands of persons to command an enormous premium. There never was an 1804 dollar made in that year," he continued. "The 1804 dollar was made some time between 1830 and 1835. The country is flooded with counterfeit coins of this date, many of which have been made from 1804 dollars. A large number of them have fine milling on the edge, which could have been made only by a machine which the government did not begin to use until 1835.

"The Queen Anne farthing is another coin which has gained a high value in the public mind, because a collector once paid a high price for several that had never been in circulation. The seed coins being as high as \$10, but they are often offered to dealers at ten times that price. The Jewish shekel, worth to dealers about \$1, is often held for as much as \$250 by enthusiastic amateurs who are misled by dates and the strange characters stamped on the coin.

"In the public mind a coin more than fifty years old is hoary with age and so rare as to be almost priceless, but a silver dollar of 1795 is actually worth no more than \$2 to dealers, and then only if it is in an excellent state of preservation, for a great many of them were coined. A half dollar of 1803 is worth as much as 15 cents more than its face value, but collectors and dealers find that there are so many of them in circulation that there is no profit in buying and selling them. In fact, a person might have a hundred United States coins of different denominations and dates, no two alike, but all more than 100 years old, which would be worth to a dealer not over \$10 above their face value."—New York Times.

GLACIAL EPOCHS.

This Old Earth of Ours Has Had More Than One Ice Age.

Every one with intelligent interest in the history of the world on which he lives has heard of "the glacial epoch," or the "ice age." The inhabitants of the northern portion of the United States have no doubt a general understanding that the gravel hills and ridges and the huge boulders with which they are familiar are due to an irresistible invasion from Canada by "the great ice sheet" at a date just preceding that which geologists term "recent," yet many thousands of years ago.

It is, however, not strictly correct to speak of the "ice age" or the "glacial epoch," for there have been many of them. It is now known that even this latest or pleistocene glacial epoch has several important divisions, and in the Rocky mountain region it appears that important changes in the form and height of the mountains, due to a wear down by erosion, took place between the glacial epochs.

More than fifty years ago it was recognized by English geologists that certain masses of gravel and breccia and certain planned and grooved rock surfaces in rocks of Peruvian age in India indicated a glacial epoch vastly older than that of the Canadian ice sheets, but it is only within the last thirty years that geologists have learned that glacial conditions have recurred at many different times in the earth's history. The evidence of this has been found in all continents in Europe, Africa, Asia, Australia, South and North America. The formation of great ice sheets took place at different periods in the larger divisions of geologic time back to the preterozoic—that is, to the age of the oldest known sedimentary rocks, a great many million years ago.

Glass Razor Stop.

"The best razor stop I ever had was a piece of glass," said the boss barber, as he sharpened the razor with a pull in it. "An old barber gave it to me, and I tell you it worked fine. Unfortunately I let it fall and broke it, and I have never been able to get one like it. There's some kink in the grinding which I can't seem to figure out. In these days a good razor stop is a mighty hard thing to find, and I would give a good deal if I could only get that piece of ground glass back again. It sure did put a cutting edge on the razor."—Pittsburgh Dispatch.

No, He Had No Opinion.

"Before we take you on the jury, Mr. Smith, we must ask whether you have formed any opinion of the prisoner's guilt or innocence."

"No," said Smith grimly. "No, I ain't formed no opinion."

"And, Mr. Smith, have you or have you not any conscientious objections to capital punishment?"

"No," said Smith, more grimly still, "not in this case."—London Opinion.

Very Likely.

"Our ancestors had very few boards of health, insanity commissions and so on."

"Perhaps it is just as well. Probably they would have locked up Sir Isaac Newton, Goethe and also Christopher Columbus."—London Courier Journal.

Great Difference.

"Some say that marriage is a lottery with us."

"That's a step above the south sea Islanders, where they marry a girl to the man who can offer the most coconuts. There it's a raffle."—London Courier Journal.

Disparagement.

"I hope you never talk about poor neighbors," said the exacting friend. "I never do," replied the frivolous woman. "They're an awfully interesting lot."—Washington Star.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for rearrangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be used by young and old, and should be kept in every family chest.

We Help Those Who Try to Help Themselves

C. W. Post Home Farms

We are building up a community of actual home owners and are anxious to interest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 100 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from \$1500 to \$1700. We will not sell land unless it is to be farmed—no speculation.

One can buy 100 acres 10 to 15 miles from Post City, but near a school, at \$20 to \$22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of \$2 per acre (\$320) down and \$1.75 an acre (\$280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.

Farms on the plains will be sold during 1915, to be occupied early in 1916, for \$2.00 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.

Also have just classified and put on the market the breaks, or grazing land. These lands will sell from \$6.00 to \$12.00 per acre. \$1.00 per acre cash, 50c per acre per year until paid out at 6 per cent interest. This goes in tracts of 640 acres and up.
